PROFILE SUMMARY

Final-year Information Systems Engineering student (CGPA 3.74, graduating March 2027) and Software Engineer Intern at Cloud Connect, building and deploying web and mobile applications with Flutter, Nuxt.js, Node.js and PostgreSQL through GitHub Actions CI/CD. Has worked on projects for JPA, KPM and Majlis Perbandaran Selayang, and coached 60 JPA participants on AICAF. Seeking a Graduate Software Engineer role.

EDUCATION

Universiti Teknologi MARA (UiTM) **Jasin, Melaka**
Bachelor of Information Systems (Hons.), Information Systems Engineering *Oct 2023 to Mar 2027 (Expected)*
CGPA: 3.74/4.0 | Specializations: **Software Engineering, System Analyst and Business Analyst**

Kolej Matrikulasi Selangor **Banting, Selangor**
Pre-University, Computer Science Module, **CGPA: 3.79** *Aug 2022 to May 2023*

EXPERIENCE

Cloud Connect Sdn. Bhd. **Seksyen U8, Shah Alam, Selangor**
Software Engineer Intern (12-month industrial placement, UiTM 3U1I programme) *Mar 2026 to Mar 2027*

- Built and deployed iPANTAU, a Flutter mobile app on a Node.js and Prisma REST API, with GPS check-in and photo upload to Cloudflare R2, set up GitHub Actions CI/CD to Render, and debugged Android permission issues.
- Contributed to TAMS, a role-based system for Staff, Admin and Super Admin users, running OpenSpec Spec-Driven Development cycles for features such as a QR meal check-in module, and worked on its mobile and desktop UI redesign.
- Built a Nuxt 3 mockup of STDI, an online booking system for Majlis Perbandaran Selayang, on Vercel with Upstash Redis, and deployed an existing NestJS SMS provider project for a tender demo using Render, Neon PostgreSQL and Upstash Redis.
- Built an n8n workflow that converts client emails into GitLab issues, reducing manual work for a colleague.
- Assisted in writing the user manual for JWINS, a nationwide school timetabling system for the Ministry of Education (KPM), by functionally testing each module.
- Facilitated a modern application development training programme for JPA staff covering Docker, Node.js, PostgreSQL/MySQL, Strapi, Swagger, Vue.js, Nuxt.js and Tailwind CSS, and corrected 14 training exercises.
- Coached 60 JPA participants on AICAF and its 6 frameworks as part of JPA's new Human Resource Management (HRM) system.
- Worked in a development team that follows Agile Scrum practices.

NextGen Makers **Seksyen 7, Shah Alam, Selangor**
Part-Time Workshop Facilitator *Aug 2024 to Sep 2024*

- Mentored participants aged 7 to 10 through hands-on STEM activities.
- Assisted with technical setup and basic troubleshooting during workshops.

dEVMatch Hackathon 2024 (APUBCC) **APU, Kuala Lumpur**
Event Volunteer *Aug 2024*

- Assisted with participant registration and venue setup.
- Provided basic technical support for 30+ participating teams.

PROJECTS

Tayyib: Shariah Stock Screener tayyib-peach.vercel.app
Personal Project | Python, PostgreSQL, Next.js, GitHub Actions *Aug 2026 to Present*

- Built a Python system that screens a sample of S&P 500 stocks against AAOIFI-based Shariah ratios using Financial Modeling Prep data, ranks compliant stocks by six-month momentum, and records the reason for every decision in PostgreSQL.
- Runs weekly on a GitHub Actions schedule, sends a Telegram summary, and publishes results to a live Next.js dashboard, with each feature specified first in OpenSpec.

ChainPass: Blockchain-Based Ticketing System
Front-End Developer | *Breakout Hackathon 2025*

- Built the front-end using React and Tailwind CSS for a decentralised ticketing platform on the Solana blockchain.
- Integrated REST API calls for NFT-based ticket validation and resale.
- Deployed the project via GitHub with the team, learning deployment workflows along the way.

Employee Leave Management System
Documenter | *Iktisas Management Network Sdn. Bhd.*

- Contributed to system design and documentation within an MVC architecture.
- Modelled the system in UML (Class, Multilayer Sequence, Package diagrams) using Draw.io.
- Designed and optimised the ERD and implemented the database schema in Oracle SQL.

SKILLS

- **Programming:** Java, C++, JavaScript, TypeScript, Dart, Python, SQL, HTML5, CSS3
- **Frameworks:** Flutter, React, Vue.js, Nuxt.js, Next.js, Node.js, Strapi, Prisma, Tailwind CSS, Bootstrap
- **DevOps and Cloud:** Git, GitHub, GitLab, GitHub Actions, CI/CD (Render, Vercel), Cloudflare R2, n8n, Docker (training)
- **Database:** Oracle SQL, PostgreSQL, MySQL, ERD design, query optimisation
- **Testing:** Functional and manual testing, debugging, pytest, Cypress E2E automation (training)
- **Practices:** Object-oriented programming, Agile/Scrum, SDLC, Spec-Driven Development (OpenSpec), user stories, UML
- **Languages:** English (Fluent), Bahasa Melayu (Native)

CERTIFICATIONS

Certified Professional for Requirements Engineering, Foundation Level (CPRE-FL) *Aug 2025*
IREB | Credential ID: MY-CPREFL-2025-00012

AI Engineer for Data Scientists Associate | DataCamp *Sep 2026*
Introduction to Software Engineering | IBM *Oct 2026*
Introduction to DevOps | IBM *Oct 2026*

AWARDS

Dean's Award (6 consecutive semesters), Faculty of Computer and Mathematical Sciences *2023 to 2026*
Tabung Kumpulan Wang Biasiswa Negeri Selangor (TKWBNS) Scholar, Selangor State Government *Jan 2024*

EXTRACURRICULAR INVOLVEMENT

Information Systems Engineering Club (ISEC) **Jasin, Melaka**
External Relations Exco *Oct 2024 to Feb 2026*

- Led external engagement for university and community programmes such as Kursus Kepimpinan SK Sebatu 2025.
- Served on the organising committee for UiTM Mini Hackathon 2025 and Ideathon Innovation Challenge 2025.

UiTM Blockchain Association (UBA) **Jasin, Melaka**
Secretary *Oct 2024 to Jul 2025*

- Assisted in stakeholder coordination and event logistics as Secretary for UiTM Mini Hackathon 2025.
- Supported 2024 and led 2025 Entrepreneurship Day fundraising, with 2025 sales of RM1,998.50 beating its target.
